Subject: 2016-6-8 - WAFB -FYI - ADEQ intent to respond to USAF PMook letter of June 7 2016 affirming AMEC-USAF ST012 clean up commitment -

FYI - As shown below, ADEQ Management has indicated a response is to be developed. I do not know what form ADEQ management response will take:

ADEQ Management acknowledges letter receipt ADEQ Management acknowledges letter receipt and ADEQ replies with ADEQ affirmation to dialog ADEQ Management requests USAF provide what specific action/inaction USAF wants ADEQ to pursue?

ADEQ submitting a rebuttal response

ADEQ submitting a detail request with broadly ranging topics -

ADEQ requests USAF detail how ADEQ is stymieing the ROD goals, Arizona's public health enhancement and Arizona's environmental protection

ADEQ asks how 23 wells are a lot (divide by 3 water zones leaves under 8 boring locations, and how characterization is completed if one presumes a clock face 12 o' Clock to 6 o' Clock arc-step-out to characterize downgradient plume) - Or even how the EBR work plan map shows characterization completed.

ADEQ requests USAF provide a point-by-point Work Plan revision table and map to show how Work Plan was amended to resolve Agency concerns

ADEQ requests USAF define "as needed" triggers and "conceptual". ADEQ questions why those phrases are even present since those phrases show uncertainty exists.

ADEQ pointing out USAF points out, technical point of views differ.
Etc. etc.

Subject: 2016-6-8 - WAFB - thanks - USAF PMook letter affirming AMEC-USAF ST012 clean up commitment - ADEQ

Thank you. Will work with you to establish response. Can you parse from the letter specifically what issue USAF is having? Or more importantly, what action/inaction USAF wants the Agencies to pursue?

As USAF points out, technical point of views differ.

Can you provide guidance as to how ADEQ response portion should proceed?

Should Agencies be requesting expeditious forwarding of all 2016 BCT meeting minutes (verbatim) to establish context, content accuracy, and dialogue exchange?

Should Agencies request USAF provide a point-by-point Agency concern/USAF revision to the Remedial Action Work Plan (a table and maps to show how Work Plan was amended to resolve Agency concerns)?

I cannot find points in the letter where the Agencies are stymieing the ROD goals, Arizona's public health enhancement and Arizona's environmental protection.

On an unrelated note, interesting that the May 2016 BCT call had AMEC Foster Wheeler legal counsel listening. I can only presume happenstance coincidence. But still, a circumstance with no prior notice to the Agencies.

Wayne-

Not sure if you have hear about this or not. I got a call from Angeles Herrera this morning regarding this letter. We both agreed that because the letter was sent to the both of us, we need to comment on it. We can discuss and ZI will need your help crafting something.

Thanks,

Subject: AF Letter Re: Site ST012, Liquid Fuels Storage Area, Former Williams AFB

Ms. Herrera and Ms. LePage,

Attached is my letter regarding Site ST012 status/plans, the AF's commitment to achieving ST012 cleanup objectives and remedial timeframe, and a discussion of recent BRAC Cleanup Team (BCT) interactions. I'm also sending originals by mail for your record.

Please feel free to contact me by email or at 916.643.1250 x 100 if you have any questions.
